

Rejuven8 Yoni Steaming Blend

A carefully crafted combination of herbs designed to bring balance and healing to a woman's body through her yoni. This centuries-old practice is celebrated for its contributions to feminine health and hygiene. Our blend supports hormone regulation, offers pre- and post-menopausal relief, and reduces cramping, bloating, and water retention. It helps manage heavy or absent menstrual flow, boosts metabolism, and aids in weight regulation. Additionally, it combats unwanted odors and pelvic pain, lowers the risk of yeast infections, fibroids, cysts, and vaginal dryness, and helps tighten and tone vaginal tissue. Embrace the ancient wisdom of yoni steaming with the Rejuven8 blend for comprehensive wellness and rejuvenation.
